### **PROJECTS & EXPERIENCE**

---

#### **TAQADAM Startup Acceleration**

**September 2018**

- TAQADAM is a KAUST / SABB bank sponsored startup accelerator program. It is designed to help participants execute their business models, deliver valuable products or services, and create local jobs. I participated in a team of three entrepreneurs.

##### ***Responsibilities:***

- Attending marketing workshops such as branding and digital marketing
- Attending a finance workshop
- Team-work such as making decisions and building a start-up company from A to Z

##### ***Accomplishments:***

- Created a front-end design for a start-up company website
- Supervised the back-end development of the company website

##### ***Technologies Used:***

- *Front-end: Materialize, CSS, HTML*
- *Back-end: JavaScript, jQuery, Google Fonts, SQL*

#### **PERSONAL PORTFOLIO**

**August 2017**

- Created my own website listing all web development projects and showing all

##### ***Responsibilities:***

- Full stack developing all projects (Front-end and Back-end)
- Updating the website constantly

##### ***Accomplishments:***

- Deployed: <http://khadijamaskeen.net/>

##### ***Technologies Used:***

- *Front-end: Materialize, CSS, HTML*
- *Back-end: APIs, JavaScript, jQuery, AJAX calls, Google Fonts, Moment.js, & GitHub*

#### **SENIOR YEAR PROJECT**

**May 2016**

- The project was creating a noise monitoring device for *The Hartford Insurance Company* to be used by workers who are exposed to various noise levels in factories. Dangerous noise levels are logged on the device and pushed to a cloud base server for review. The Information logged is used to improve worker safety & health programs.
